## Recommendation

---

### Website Optimization

The items on this sheet are critical to making the website function the best way it can. Fixing these is a crucial first step to its success. We recommend fixing all of the items on this report as soon as possible.

### Organic SEO

Running an organic Search Engine Optimization campaign will increase the website's visibility and traffic consistently. It will also maintain high Google rankings over a long period of time. We recommend starting a campaign immediately.

### Local Marketing

If the business has a physical location and you want to attract more visits in its area, we recommend running a local marketing campaign. This puts business on more maps and mobile devices of customers found in your target area.

### Social Media

A Social Media presence is necessary for all sites that support, nurture and communicate with the brand's community. We recommend running a Social Media campaign to ensure your website gets all the visibility it can online.
